# \* F2D Combat Safety at the European Championships 2007

This document explains how the officials proceed to increase safety in F2D Combat, in particular how to avoid fly aways and minimize the hazards of personal injuries against a cut- off free-flying model aircraft.

# The F2D Combat rules "in effect 1st of January 2007" are applied.

The rules (Section 4.4, pages 32 to 38) can be downloaded from;

ftp://www.fai.org/sporting\_code/sc4.f2.07.zip

# For all:

- The safety instructions given by the organizer have to be followed strictly.
- It is requested to wear adequate protective headgear for all persons (officials, jury/judge, team managers pilots, mechanics and helpers...) in the combat contest area when flying is in progress.
- Contestants not directly involved in the preceding or one of the following bouts are requested to withdraw behind the safety fences.
- Spectators and others not involved in the Combat must at all times stay behind the safety fences.

#### For the staff:

 The organizer will provide special safety fence for scores/time keeper, judges and administrative personal. Everyone involved will (Should) use this safety measure as intended when flying in progress.

# For the pilots:

- The handle and safety strap has to be in accordance with the figure 4.4.6.b in the rulebook, e.g. the strap should be tied around the wrist with a slipknot. Handle and strap assembly has to be shown at the processing. The quality of the handle/safety strap construction will be examined and the contestant may be requested to improve on this quality if the construction does not meet quality needed to withstand forces that may occur during normal combat.
- At the field processing a competitor can be asked to change the lines although they withstand the pull test. A suspicion of dubious quality of the lines justifies this.
- The Circle Marshal will observe if the strap is correctly tied and disqualify the contestant for an infringement of the specifications in the rules.
- It is important to be aware of following rules:
  - 4.4.15. Cancellation of the Flight (This means DISQUALIFICATION).
  - d) He interferes with his opponent....
  - m) For any other flagrant breach of the rules:
  - w) If one or both opponents are quality of either
    - a) Causing line tangles; or
    - b) A " sawing" action on the line (s)

he or they may be disqualified at the discretion of the Circle Marshall;

 All judges and the circle marshal are instructed to apply these without hesitation when necessary. Even after a bout they can decide on a disqualification if during the 4 minutes communications amongst them was not possible. Line tangles can result in a disqualification even if they are not followed by lines cut-off of a model aircraft.

The FAI Jury and the F2D Judges

# Safety in F2D Combat.

At the CIAM Plenary Meeting 24/03/2007 the following was adopted.

" add the following to 4.4.5 (effective January 1st 2009):

# "An effective engine shut-off device will be compulsory"

The subcommittee will conduct test beginning July 2007 and propose new rules for inclusion on the Plenary Agenda for March 2008.

This means that from January 1<sup>st</sup> 2009 a combat model can be used only if an engine shut-off system is installed. They way is open to all devices, provided the engine is shut- off as soon as a model has its lines cut and it starts free flying. There is no limit to the method used. The device can be based on mechanic, electric, electronic or other type of operation.

To evaluate the current situation everybody with a working engine shut-off system or an idea of a system is invited to discuss and demonstrate this under combat conditions.

This brainstorm/meeting will take part on Sunday 7<sup>th</sup> of July (between the World Cup organized in Belgrade 4-5<sup>th</sup> of July and the European Championships 6-14<sup>th</sup> July). It will be an ideal opportunity to discuss these systems and to demonstrate how they work.

More details to come....

#### **WORKSHOP F2B:**

# CIAM Subcommittee F2

# 2007 C/L Eurochamps

# International F2B Judging Workshop; Invitation

The F2B Work Group hereby invites anybody interested to participate in an open workshop type event to be held during the upcoming European Championships in Belgrade. The F2B Workshop is scheduled to take place on the contest site and will begin **Saturday**, **July 7**<sup>th</sup> **2007** at **10:00**.

# Agenda

# • Recapitulation of the 2007 F2B Rule and Judges Guide. By Massimo Semoli, Italy

Conducted on a rule-by-rule and manoeuvre-by-manoeuvre basis, this will be a presentation supported by both Sporting Code manoeuvre diagrams and related 3-D illustrations provided by Keith Renecle. Discussing this item of the agenda shall help developing a common interpretation of the current **Rule** and **Judges Guide** for the upcoming contest

# \*Aspects of on-screen 3-D manoeuvre display. By Keith Renecle, South Africa

An illustrated lecture explaining the **opportunities** resulting from geometrically accurate 3-dimensional display of F3B manoeuvres on screen. The presentation will demonstrate what can be done today and perhaps tomorrow, and will support the discussion of future consequences possibly resulting from the ongoing development.

# • Open discussion on F2B general issues. Coordinated by Peter Germann, Switzerland

Topics, among others, shall be: Ho did the new 2006 rule for F2B perform so far? Points to be modified? Future contest format for F2B?

Participation is free of charge and no E/C registration is required to join. Those wishing to join the event, without otherwise being registered as participants of the E/C, are kindly requested to register for the Workshop alone at the address below:
